

AI Compliance, Privacy & Copyright: HR, Legal, IT

AI can accelerate HR, Legal, and IT operations, but only if used responsibly. This course shows you how to apply AI with guardrails that protect data, respect copyright, and reduce bias. Learn compliance frameworks, governance controls, and evaluation strategies to keep your team safe while unlocking AI's productivity benefits. By the end, you'll know how to deploy AI in your workflows confidently, legally, and securely.
