

Microsoft Entra ID (formerly Azure Active Directory)

This Azure Active Directory (AAD) training covers user access, data, and security for applications running in the cloud and on-prem.

[CBT Nuggets course material](#) →

WEEK 1

Describe the Basic Identity Services and Identity Types of Azure AD 158 min.

Describe What Azure Active Directory Is	18
Create an Azure Account	17
Hybrid Identity Synchronization	14

Understanding Devices in Azure AD and Password Management

Overview	1
Joining to Azure Active Directory	8
Registering a Device to Azure Active Directory	8
Hybrid Join a Device	2
External Identity Types	11
Intune and Microsoft Endpoint Management	15
Azure Active Directory Password Protection	8
Self-Service Password Reset	8

Describe the Authentication Capabilities of Azure AD

Overview	1
Describe the Different Authentication Methods	11
Configure Authenticator and PIN	4
Authenticate with Picture Password	4
Authenticate with Fingerprint	6
Authenticate with Facial Recognition	6
Authenticate with a Security Key	3
Windows Hello for Business	11

WEEK 2

151 min.

Identity Protection & Governance Capabilities of Azure AD

Overview	1
Understand Identity Governance	11
Use Cases for Identity Governance	5
Create an Access Package	12
Describe the Capabilities of PIM	13
Describe Azure AD Identity Protection	10

Working Azure AD Identity Types and Services

Overview	1
Getting Started With Azure AD	6
Working With Azure Active Directory	11
Azure AD Identity Types	8
Service Principal and Managed Identity in Azure AD	4
Configuring Identity Synchronization	13
Dealing With External Identities	3

Describe Authentication Capabilities of Azure AD

Overview	1
Managing Azure Identity Access	14
Describe Windows Hello for Business	5
Azure AD Authentication	9
Configuring Self Service Password Reset (SSPR)	10
Configuring Dynamic Groups in Azure	9

Azure AD User, Groups and Licenses

Overview	1
----------	---

WEEK 3

157 min.

Azure AD Users	9
Creating Users with PowerShell	5
Bulk User Management	5
Azure AD Groups	12
Managing Users and Groups	10
Managing Licenses	10

Deploying Enterprise Applications in Azure AD

Overview	1
Application Discovery	9
Azure AD Application Proxy	11
Deploying Azure AD Application Proxy	8
Integrating SaaS Applications Into Azure AD	4
User Consent Settings	9
Access Management for Apps	6
Configuring SSO for an App	8
Application User Provisioning	9
Monitor and Audit App Access	4
Create and Manage Application Collections	5

Application Registration in Azure AD

Overview	1
Intro	1
App Registration	13
App Registration Planning	7
App Permissions	8

WEEK 4

85 min.

App Roles	10
Muti-tier Application Authentication	6

Azure AD Management

Overview	1
Troubleshoot Azure AD Access Issues	8
Azure AD Audit Logs	5
Microsoft Sentinel	9
Analyzing Azure AD Logs with Microsoft Sentinel	7
Export Azure AD Logs to a 3rd Party SIEM	4
Azure Workbooks	6
Configure Notifications	6

Enable Azure AD Privileged Identity Management (PIM)

Overview	1
Privileged Identities	6
Enabling PIM	3
Enabling Just-In-Time Access and Privileges	4
Enabling Time-Bound Access	3
Enabling PIM Approval Process	3
