

Cisco CCNP Securing Networks with Cisco Firepower (300-710 SNCF)

This advanced Cisco CCNP Security training covers the objectives in the 300-710 SNCF exam, which is one of six concentration exams you can take to earn the CCNP Security certification. This Cisco training can be used for 300-710 SNCF exam prep, onboarding new network administrators, individual or team training plans, or as a Cisco reference resource.

WEEK 1

Build a Cisco Firepower Lab in ESXi

158 min.

Intro to Building a Firepower Lab on an ESXi Host	1
Lab Game Plan	8
ESXi Host Networking Design	7
ESXi Host Networking Configuration	9
Vyos Router VM Configuration	14
Windows Server VM	6
Deploy the FMC	5
Deploy the FTDs	8
Add FTDs to the FMC for Mgmt	11

Build a Cisco Firepower Lab in VMware Workstation

Overview	1
Introduction to Building a Firepower Lab in VMware Workstation	1
Lab Game Plan	4
VMware Workstation Networking	13
Windows Server VM	7
Deploy the FMC	6
Deploy the FTDs	11
Bootstrapping the FMC and FTD	8
Add FTD to the FMC for Mgmt	10

Build a Cisco Firepower Lab in EVE-NG

Overview	1
Introduction to Build a Firepower Lab in EVE-NG	1
Lab Game Plan	5
Prepping EVE-NG with Firepower Images	10
Deploying FMC and FTDs in EVE-NG	9

WEEK 2

154 min.

Routing for the Lab 13

Bootstrapping FMC and FTDs EVE-NG 12

Add FTDs to the FMC for Mgmt 4

Getting Started with Cisco Firepower

Overview 1

Intro to Firepower 1

Firepower Overview 18

Deployment Options 8

Configure Data Plane Interfaces 15

Configure Data Plane Routing 14

Configure DHCP services 8

NAT and PAT on the FTD 9

Verification with a Client VM 8

Cisco Firepower Access Control Policy Fundamentals

Overview 1

Intro to Firepower Access Control Policies (ACP) 1

Access Control Policy Overview 10

Monitoring Network Traffic 11

ACP Rule Actions 10

ACP Action of Block 8

WEEK 3

156 min.

ACP Interactive Block 7

ACP Categories 8

Nesting and Inheritance 9

ACP Properties 5

Analyze Hit Counts 7

Cisco Firepower IPS/IDS

Overview 1

Intro to Firepower IPS/IDS 1

IPS/IDS Overview 14

Passive IDS Interfaces 6

Bridge Groups 6

Inline IPS Interfaces 13

Verify the Inline Pair/Set 10

Intrusion Policies 9

Adding the IPS Policy to the ACP 16

Testing an IPS Policy 9

Cisco Firepower SSL Decryption

Overview 1

Intro to SSL Decryption 2

SSL/TLS Overview 8

SSL Decryption Concepts 6

PKI vs Local CA 4

Generate a CSR 5

Creating an SSL Policy 7

WEEK 4

155 min.

Linking an SSL Policy to the ACP 7

Testing the SSL Policy 6

Cisco Firepower Malware and File Policies

Overview	1
Intro to Malware and File Policies	1
Overview of Malware and File Policies	4
Creating a File Policy	9
Testing the File Policy	11
Malware Analysis	12
Testing Malware Detection	8

Cisco Firepower Security Intelligence

Overview	1
Intro to Security Intelligence	1
Security Intelligence Overview	7
Dynamic IP and URL Blocking	12
Geo Location	6
Using Network and URL SI	5
Using DNS SI	15
Pre-filters and Trust	12

Cisco Firepower High Availability

Overview	1
Intro to Cisco Firepower High Availability (HA)	1
HA FT Overview	9
Updates for FMC and FTDs	8
Implement FMC HA	5
FTD HA Overview	10

Implement FTD HA	5
Verifying FTD HA	16

Leveraging Identity in Cisco Firepower

Overview	1
Intro to Identity in Firepower	1
User-Based Control Overview	6
Network Discovery Policy	10
Realms and Identity Sources	9
Identity Policies	4
Linking Identity and AC Policies	7
External User Authentication	13

Upgrading Firepower

Overview	1
Intro to Updating Firepower	1
Updating Overview	7
Update FMCs	8
Re-synchronize the FMCs	4
FTD Update	11
Validating Firepower Updates	4
New Features in Version 7	16

Cisco Firepower VPNs

Overview	1
Intro to Cisco Firepower VPNs	1
VPN Overview	12
Implement a Site to Site VPN	13

WEEK 5

161 min.

Network Prep For FTD HA	7
-------------------------	---

WEEK 6**156 min.**

Testing Site to Site VPN	8
NAT for Site to Site VPNs	14
Full Mesh VPNs	13

Cisco Firepower Device and Platform Settings

Overview	1
Intro to Device and Platform Settings	1
Firepower Health	11
Using Alerts	5
User Preferences	5
Graceful Shutdown	10
Tracking Changes	5
Platform Settings	15

Cisco Firepower Integration

Overview	1
Intro to Firepower Integration	1
Integration Overview	8
AMP Integration	12
Threat Intelligence Director	18
FMC, ISE, and pxGRID	4
Cisco SecureX Threat Response	5

Cisco Firepower Correlation Policies

Overview	1
Intro to Correlation	1
Correlation Overview	3
Correlation Policy Rules	11

WEEK 7**164 min.**

Alerts	4
Remediations	9
Correlation Policy	5
QoS	11

Firepower Troubleshooting

Overview	1
Troubleshooting FTD Connectivity	12
Firepower Order of Operations	7
The Packet-Tracer Utility	14
Firepower Troubleshooting Tips	12
Firepower Troubleshooting Tools	11
Troubleshooting Slowness	9

Firepower Dashboards and Scheduling

Overview	1
Firepower Dashboards	13
Custom Dashboards	5
Automating Tasks in Firepower	11
Automating Firepower Backups	11
Firepower NMAP Scans	10

Firepower Audit Logging and Reporting

Overview	1
Firepower Audit Logs	14

WEEK 8**36 min.**

Firepower Change Control Settings	6
Firepower Reporting	10
Creating Custom Firepower Reports	11
Security Analytics and Logging	3
File Trajectory and Reporting	5
