

Palo Alto Networks Certified Network Security Engineer (PCNSE)

This Palo Alto Networks Certified Network Security Engineer (PCNSE) training covers how to deploy & configure Palo Alto hardware & software and be able to troubleshoot network security issues. Best attempted with years of experience, the certification requires deep knowledge of designing, deploying, configuring, maintaining, and troubleshooting nearly all Palo Alto platform implementations.

[CBT Nuggets course material](#) →

WEEK 1

Building a Palo Alto PCNSE Lab

160 min.

Intro to Building a Palo Alto Networks PCNSE Lab	1
Lab Overview and Design	13
Initialize the Firewall	5
Configure the L3 Interfaces	7
Configure DHCP Services	3
Configure Security Policy Rules	3
Configure NAT Policy Rules	3
Configure a Default Route	7
Test and Troubleshoot	5

Configuring PA FW High Availability

Overview	1
Intro to PA Firewall High Availability	1
HA Overview	1
Game Plan for HA	1
Configure HA Interfaces	1
Configure Active FW HA	1
Configure the Passive FW HA	1
Test and Verify HA	1
Configure HA Link Monitoring	1
Configure HA Path Monitoring	1

Using Template Stacks with Panorama

Overview	1
Intro to Panorama and Template Stacks	1
Panorama and Template Stacks Overview	9
Onboard FWs to Panorama	7

Creating Templates	7
Create and Associate Template Stacks with FWs	9
Template Stacks and Priority	9
Using Variables	13

Using Device Groups with Panorama

Overview	1
Intro to Device Groups	1
Device Groups Overview	9
Add FWs to Panorama	3
Configure Templates	14
Configure Device Groups	5
Configure Objects in Device Groups	11

WEEK 2

155 min.

Configure DG Policy Rules	12
Configure DHCP Services	2
Test and Verify	3

Managing FWs with Panorama

Overview	1
Intro to Managing FWs with Panorama	1
Overview of Using Panorama to Manage FWs	7
Importing FW Configurations	17
Managing Log Collection	17
Scheduled Pushes and Exports	9
Auto Recovery, Dynamic Updates, and Health Checks	6
Role-based Panorama Management	7

Managing PA FW Digital Certificates

Overview	1
Intro to Managing Palo Alto FW Digital Certificates	1
Decryption Strategies Overview	1
Decryption Game Plan	1
Setting Up a Local Trusted CA	1
Setting Up a Digital Cert for FW Management	1
Setting Up Digital Certs for SSL Forward Proxy	1
Setting Up Digital Certs for SSL Inbound Inspection	1
Using a Cert for FW Management	1
Using a Cert for Panorama Mgmt	1

Enforcing Palo Alto FW User-ID

Overview	1
Intro to User-ID	1
User-ID Overview	1
Enable User-ID and Setup the Agent	1
Redistribute User-ID Mappings	1
Using User-ID in Policy	1
Enable User-ID Group Mappings	1
Using Group Membership in Policy	1

Configure PA FW Admin Authentication

Overview	1
Intro to Palo Alto FW Admin Authentication	1
Admin Authentication and Authorization Overview	1
Configure Server Profiles for Central Authentication	1
Create Authentication Profiles	1

Setting Up an Authentication Sequence	1
Creating Admin Roles	1
Create Admin Accounts	1
Using Panorama	1

Implement Routing on PA FWs

Overview	1
Intro to PA FW Routing	1
Routing Overview	20
Enable Advanced Routing	5
Static Routes and Path Monitoring	14

WEEK 3

152 min.

Equal Cost Multiple Path (ECMP)	5
Dynamic Routing	11
Policy-Based Forwarding (PBF)	6
Service Routes	10
Using Panorama to Configure Routing	12

Configure PA FW QoS

Overview	1
Intro Palo Alto FW Quality of Service	1
Palo Alto QoS Overview	1
QoS Game Plan	1
Create QoS Policy Rules	1
Create a QoS Profile	1
Enable QoS on Egress Interfaces	1
Using QoS Real Time Stats	1

Prioritizing Traffic Based on IP Header ToS	1
---	---

Implementing PA FW L2 Interfaces

Overview	1
Intro to Layer 2 Interfaces on the Firewall	1
Layer 2 Interfaces Overview	11
Layer 2 Physical Interfaces Game Plan	4
Configure L2 Physical Interfaces	5
Testing L2 Physical Interfaces	7
Layer 2 Sub-Interfaces Game Plan	4
Configure Layer 2 Sub-Interfaces	6
Testing Layer 2 Sub-Interfaces	7

Using PA FW Zone, Vulnerability, & DoS Protection

Overview	1
Intro to Palo Alto Zone, Vulnerability, and DoS Protection	1
Zone, DoS, & Vulnerability Protection Overview	1
Create a Vulnerability Protection Profile	1
Testing the Vulnerability Protection Profile	1
Create a Zone Protection Profile	1
Testing the Zone Protection Profile	1
Create a DoS Profile and Policy	1
Testing DoS Profiles and Policy	1

Implementing PA FW Virtual Wires

Overview	1
Intro to Virtual Wire	1
Virtual Wire Overview	1
Game Plan for Virtual Wire	1

Implement Single VLAN VWire	1
Testing Single VLAN VWire	1
Implement Multiple VLAN VWires	1
Testing Multiple VLAN VWires	1
Using Address Translation with a VWire	1

Configuring GlobalProtect Remote Access VPNs

Overview	1
Intro to Remote Access VPNs Using GlobalProtect	1
GlobalProtect Remote Access VPN Overview	6
Game Plan for GlobalProtect Remote Access VPNs	5
Certificate Setup for GlobalProtect	6
Verify LDAP	2
Zone and Interface Setup for GlobalProtect	1
Configure the GlobalProtect Gateway	8

WEEK 4

158 min.

Configure the GlobalProtect Portal	7
Testing GlobalProtect Remote Access	12
Using Host Information Profiles	10
Clientless VPN	5

Implementing Palo Alto FW App-ID

Overview	1
Intro to App-ID	1
App-ID Overview	10
Traffic Processing Sequence	12
Security Policies with App-ID	7

Application Filters	4
Moving to App-ID	6
Custom App-IDs and Overrides	7
Dynamic Updates	7

Configure PA FW Source and Destination NAT

Overview	1
Intro to Source and Destination NAT	1
Address Translation Overview	1
Source NAT Game Plan	1
Configuring SNAT SIP	1
Configuring SNAT DIP	1
Configuring SNAT DIPP and No-NAT Policies	1
Destination NAT Game Plan	1
Configuring DNAT 1 to 1 Mapping	1
Configure DNAT Port Redirection	1
Destination NAT & DNS Rewrite	1
Destination U-Turn NAT	1

Configure PA FW VLAN, TAP, and Aggregate Interfaces

Overview	1
Intro to TAP, VLAN, and Aggregate Interfaces	1
TAP Interface Overview	1
TAP Interface Configuration	1
VLAN Interface Overview	1
Configure VLAN Interfaces	1
Test VLAN Interfaces	1
Aggregate Ethernet Interfaces	1
Verify the Aggregate Interface	1

Configuring PA FW Decryption Services

Overview	1
Intro to Configuring PA FW Decryption Services	1
Implement SSL Forward Proxy	11
Verify SSL Forward Proxy	7
Implement SSL Inbound Inspection	8
Verify SSL Inbound Inspection	3
Problems with SSH and Tunneling	13

WEEK 5

151 min.

Configure SSH Proxy	5
Verify SSH Proxy	4

Configure Static PA FW S2S VPNs

Overview	1
Intro to Static Site-to-Site IPsec VPN Tunnels	1
Site-to-Site VPN Overview	1
Create a Tunnel Interface	1
Create Network Profile for IKE	1
Create Network Profile for IPsec	1
Create Network Profile for IKE Gateway	1
Create IPsec Tunnel	1
Configure Routing for IPsec S2S VPNs	1
Security Policies for IPsec S2S VPN	1
Using Panorama for S2S VPN	1
Verifying the IPsec Site to Site VPN	1

Using PA FW S2S VPNs with Certificates

Overview	1
----------	---

Intro to IPsec S2S VPNs using Certificates	1
Overview of IPsec S2S VPNs using Certificates	3
Game Plan for S2S VPNs using Certificates	4
Certificates and Certificate Profiles	9
Create a Tunnel Interface	3
Create Network Profile for IKE	2
Create Network Profile for IPsec	3
Create Network Profile for IKE Gateway	4
Create IPsec Tunnel	2
Configure OSPF for IPsec S2S VPNs	6
Security Policies for IPsec S2S VPN	5

Configure an IPsec VPN: PA FW to Cisco

Overview	1
Intro to IPsec VPNs Between Palo Alto FW and Cisco	1
Overview of IPsec S2S Between Palo Alto and Cisco	5
Game Plan for IPsec VPN Between Palo Alto and Cisco	4
Create a Tunnel Interface	5
Create Network Profile for IKE and IPsec	3
Create Network Profile for IKE Gateway	3
Create the IPsec Tunnel	5
Routing Through the Tunnel Interface	2
Security Policies for IPsec S2S VPN	2
Test and Verify IPsec VPN	8
PA FW to Cisco with No Crypto Maps	19

Using LSVPNs with GlobalProtect

Overview	1
Intro to Palo Alto FW Large Scale VPNs (LSVPN)	1

LSVPN Overview	1
LSVPN Game Plan	1
Confirm Certificates on GW, Portal, and Satellite	1
Configure FW18 as Gateway for LSVPN	1
Configure FW18 as Portal for LSVPN	1
Configure FW19 as Satellite for LSVPN	1
Testing LSVPN	1
Adjusting Policies for LSVPN	1

Using PA FW AV & WildFire

Overview	1
Intro to Palo Alto Networks WildFire	1
WildFire Overview	1
Verify Initial Settings for WildFire	1
Using an Antivirus Profile	1
Using a Decryption Policy	1
Include a WildFire Analysis Profile	1
Verifying WildFire Analysis	1
Additional Tips for Dealing with Threats	1

Using Palo Alto ZTP

Overview	1
Intro to Palo Alto Zero Touch Provisioning	1
Zero Touch Provisioning Overview	1
ZTP Game Plan	1

Confirm Panorama Device Certificate	1
Register Panorama with ZTP Service	1
Enable ZTP on Panorama	1
Create ZTP Admin Account on Panorama	1
Create ZTP Device Group and Template	1
Add ZTP Firewalls to Panorama	1
Connect and Power-on a New Firewall	1

Troubleshooting PA FW Routing

Overview	1
Intro to Troubleshooting PA FW Routing	1
Troubleshooting Routing Overview	5
Troubleshooting RIP	6
Setting Up GRE Tunnels	5
Configuring and Troubleshooting RIP	13
Troubleshooting OSPF	11
Troubleshooting BGP	12
Troubleshooting Static Routes	14
Troubleshooting Policy-based Forwarding	9

Using PA FW Dynamic Groups

Overview	1
Intro to PA FW Dynamic Groups	1
Dynamic Groups Overview	1
Game Plan for Dynamic Address Group (DAG)	1
Create a Log Forwarding Profile	1
Create a Dynamic Address Group (DAG)	1
Game Plan for Dynamic User Group	1
Dynamic User Group Configuration	1

WEEK 6

152 min.

Installing the ZTP Panorama Plugin	1
------------------------------------	---

Verifying DUG	1
Decryption Troubleshooting with DUG	1
Troubleshooting PA FW NAT	
Overview	1
Intro to Troubleshooting PA FW NAT	1
NAT Troubleshooting Overview	9
Configure and TShoot Source NAT	13
Configure and TShoot Destination NAT	8
Setting up the Overlapping IP Address Scenario	7
Game Plan for Overlapping IPs	6
Configure SNAT and DNAT on FW18	5
Configure SNAT and DNAT on FW19	4

WEEK 7

73 min.

Configure Routing for Overlapping Subnets	4
Configure Security Policy	3
Troubleshooting the Overlapping IP Network	9

Troubleshooting PA FW IPsec VPNs

Overview	1
Intro to Troubleshooting PA FW IPsec VPNs	1
IPsec VPN Troubleshooting Overview	1
IPsec Tunnel Troubleshooting Game Plan	1
Configure IPsec Between FW18 and R11	1
Testing IPsec from FW18 to R11	1
Configure IPsec Between FW18 to FW19	1
Testing FW18 to FW19	1

Configure IPsec from FW19 to R22	1
Testing IPsec from FW19 to R22	1
Adding Dynamic Routing	1
Troubleshooting Routing Over IPsec	1
Updating Security Policies for IPsec	1

Troubleshooting PA FW Decryption

Overview	1
Intro to Troubleshooting PA FW Decryption	1
Troubleshooting Decryption Overview	1
Troubleshooting SSL Forward Proxy	1
Configure Decryption Port Mirroring	1
Verify Decryption Port Mirroring	1
Modify Decryption Policy	1
Using the ACC & Logs for Troubleshooting	1
Troubleshooting QUIC	1

Using PA FW Anti-Spyware

Overview	1
Intro to Palo Alto Anti-Spyware	1
Anti-Spyware Overview	1
Tunneling Example	1
Blocking Malicious IPs	1
URL Filtering for C2	1
Filtering Proxy Web Sites	1
Creating an Anti-Spyware Profile	1
Verifying Anti-Spyware Results	1

Using IPv6 with PA FWs

Overview	1
Intro to Using IPv6 with Palo Alto Firewalls	1
IPv6 Overview	1
Game Plan for IPv6	1
Verify ISP Configuration	1
Enable IPv6 on FW18	1
Testing IPv6 on FW18	1
Enable IPv6 on FW19	1
IPv6 Routing	1
Security Policy for IPv6	1

Using Palo Alto FW Authentication Portal

Overview	1
Intro to Authentication Portal	1
Authentication Portal Overview	1
Verify User-ID	1
Setting up Certificates for Authentication Portal	1
Authentication Portal Settings	1
Interface Management Profile	1
Authentication Policy Rules	1
Verify Authentication Portal	1
Multi Factor Authentication	1
