

# Microsoft 365 Certified: Endpoint Administrator Associate (MD-102)

This Microsoft 365 Certified: Endpoint Administrator Associate (MD-102) training covers how to deploy, configure, manage, and secure Windows 10 devices in an enterprise environment. The Endpoint Administrator Associate specifically prepares learners for MD-102, which covers deploying, configuring, protecting, managing, and monitoring devices and apps in a Microsoft 365 environment.

## WEEK 1

### Deploy Windows Clients: Upgrade, Clean Install, 155 min. and Migration

Traditional Provisioning	8
Dynamic Provisioning	3
Upgrading Windows	8
Run a Compatibility Test	5
Perform a Rebuild	11
Overview of the User State Migration Tool	11
Lab User State Migration Tool (USMT)	21

### Provisioning, Windows Editions, and Subscription-Based Activation

Overview	1
Windows Provisioning Packages	10
Windows Imaging and Configuration Designer	26
Compare Windows 10 and 11	6
Compare Windows 11 Editions	9
Implement Subscription-Based Activation	6

### Image Basics, Windows in a VHDX, the ADK and WSIM

Overview	1
Implement Thick or Thin Images	11
Install Windows to a VHDX File	5
The Windows ADK	11

## WEEK 2

153 min.

Automate Installation with the WSIM	26
-------------------------------------	----

## Plan and Implement a Windows Client Deployment by Using the Microsoft Deployment Toolkit (MDT)

Overview	1
Deployment Considerations	10
Understanding the Roles of WDS and MDT	7
Configure Windows Deployment Services (WDS)	21
Deploy Windows 11 with the MDT	24

## Deploy Windows Autopilot

Overview	1
Introducing Windows Autopilot	7
Autopilot Capabilities	5
Autopilot Requirements	8
Autopilot Self-Driven and Pre-Provisioned Modes	4
Autopilot Self-Deploying, for Existing Devices, and Reset	7
Autopilot Hardware ID Setup	10
Autopilot Demo	5
Set up the Enrollment Status Page	7
Troubleshoot an Autopilot Deployment	8

### WEEK 3

## Configure Remote Desktop, Remote Assistance, and Remote Help in Intune **158 min.**

Overview	1
Set Up a Lab Environment	10
Configure Remote Desktop	16
Configure Remote Assistance	15
Remote Help in Intune	5
Remote Help in Intune Demo	15

## Configure Remote Management Using Windows Admin Center, PowerShell Remoting, and WinRM

Overview	1
Windows Admin Center	8
Windows Admin Center on Client	14
Windows Admin Center Gateway	9
Configure PowerShell Remoting and WinRM	16
Configure Remote Consoles	10

## Manage Identity: Windows Hello for Business

Overview	1
Introducing Windows Hello for Business	13
Windows Hello Biometrics	5
Sign in with a Passwordless Security Key	8
Windows Hello with Fingerprint Scanner	3

### WEEK 4

**158 min.**

Windows Hello with Facial Recognition	4
Windows Hello for Business GPO	5
Windows Hello for Business Configuration Profiles	7

## Understanding Azure Capabilities and the Intune Connector for Active Directory

Overview	1
The Azure Paradigm Shift	10
New to Azure	11
How Azure AD Protects Credentials	15
Implement the Intune Connector for Active Directory	12

## Register and Join Devices to Azure AD and RBAC

Overview	1
Register Devices to Azure AD	15
Join Devices to Azure AD	8
Configure Hybrid Azure AD Join	14
Introducing Role-Based Access Control (RBAC)	9
Understand the Principles of RBAC	9
Azure and Azure AD RBAC	6
Manage Role-Based Access Control (RBAC) for Intune	8

## Manage the device lifecycle in Intune

Overview	1
Intune MDM Features	8
Intune Enrollment: User-Driven	11

## WEEK 5

161 min.

Intune Enrollment: IT-Driven	15
Enroll Android Devices	8
Enroll iOS/iPadOS Devices	8
Apple Device Enrollment Program	4
Configure Policy Sets	13

## Implement Compliance Policies for All Supported Device Platforms by Using Intune

Overview	1
Co-Manage Compliance with Configuration Manager	14
Compliance Policy Overview	8
Demonstrate Compliance Policy	10
Troubleshoot Compliance Policy	6

Implement Conditional Access Policies That Require a Compliance Status	16
--	----

## Manage Device Configuration by Using Intune

Overview	1
Dynamic Security Groups	5
Create Configuration Profiles	13
Import ADMX into Configuration Profiles	5
Synchronize Profiles and Policies	5
Apply Scripts in Intune	5
Monitor and Troubleshoot Configuration Profiles	6
Configure and Implement Windows Kiosk Mode	16

## WEEK 6

## Manage Local Groups, Admins, and Manage Android Profiles 153 min.

Overview	1
Plan and implement Microsoft Tunnel for Intune	17
Android Profile Platforms	3
Configuration Profiles on Android Devices	14
Manage Membership of Local Groups	9
Manage Membership of Local Azure AD-Joined Devices	12
Local Administrative Password Solution (LAPS) for Azure AD	9

## Monitor Devices by Using Intune, Azure Monitor, and Endpoint Analytics

Overview	1
Monitor Devices in Intune	7
Monitor Devices in Intune Monitor	2

Monitor Devices in Intune with Power BI	7
Azure Monitor Data Flow	9
Azure Monitor Collection and Subscription	8
Working with Azure Monitor	10
Overview of Endpoint Analytics	10
Assess Infrastructure Readiness by Using Endpoint Analytics	10
Evaluate the Adoption Score	4

### Manage Device Updates by Using Intune

Overview	1
Update Settings	10
Update Type and Cadence	6

## WEEK 7

154 min.

Delivery Optimization	7
Configure Windows Client Delivery Optimization by Using Intune	7
Create and Manage Update Rings by Using Intune	13
Forced Feature and Quality Updates	9
Manage iOS and iPadOS Updates	3
Manage Android Updates by Using Device Configuration Profiles	6
Monitor and Troubleshoot Updates in Intune	7

### Implement Endpoint Protection

Overview	1
Introduction to Endpoint Security	2
Overview of Security Baselines in Intune	6

Demo - Security Baselines in Intune	20
Endpoint Security - Firewall	10
Reusable Settings	4
Quiz - Security Baselines and Firewalls	3

### Endpoint Protection: Antivirus, Endpoint Detection and Response, Attack Surface Reduction

Overview	1
Microsoft 365 Defender Requirements	6
Onboard Devices to Defender for Endpoint	19
Configure Endpoint Security for Antivirus	13
Configure Endpoint Security for Encryption	6
Configure Endpoint Security for ASR - ASR Rules	4
Configure Endpoint Security for ASR - Exploit Protection	5

## WEEK 8

161 min.

Configure Endpoint Security for ASR - Windows 10 and 11	7
Incidents in Defender for Endpoint	7
Microsoft Defender Vulnerability Management Dashboard	5

### Deploy and Update Apps

Overview	1
Deploy Microsoft Store Apps (Legacy)	11
Deploy Microsoft Store Apps (New)	7
Deploy Win32 Apps	3
Deploy Win32 Apps Demo	17
Deploy Apps by Using Apple Store	4

Deploy Android Apps 18

### **Configure, Deploy, and Manage Microsoft 365 Apps**

Overview 1

Determine Office Upgrade Readiness 9

Implement the Office Customization Tool (OCT) 16

Deploying Office with ODT 4

Manage Microsoft 365 Apps in Apps Admin Center 10

Deploy Microsoft 365 Apps by Using Intune 6

Manage Office App Settings by Using Intune 7

Manage Office App Settings by Using Group Policy 11

### **Plan and implement app protection and app configuration policies**

Overview 1

Compare MDM and MAM 13

## **WEEK 9**

---

**42 min.**

Overview of App Protection Policies 3

App Protection Policies in Action 15

Windows Information Protection Overview 4

Windows Information Protection in Action 12

App Protection Policies 7
