

# Juniper Enterprise Networking

This enterprise routing and switching training course prepares learners to use and troubleshoot Juniper technologies. Whether you've worked on a Juniper network for a while or you're just getting started, this Juniper training will cover the intermediate to advanced knowledge you'll need on the job. While this Juniper training no longer maps to a certification exam, it's still a valuable resource for network engineers looking to advance.

[CBT Nuggets course material](#) →

## WEEK 1

### Configure Layer 2 Switching on Junos

162 min.

Intro Junos Switching	2
A Layer 2 Refresher	15
EX-Series: Create VLANs	10
EX-Series: Configure Access and Trunk Ports	10
EX-Series: Inter-VLAN Routing	6
EX-Series: Configure the Voice VLAN	6
MX: Configure VLANs	6
MX: Configure Access and Trunk Ports	5
MX: Inter-VLAN Routing	3
Now Do It With QFX-Series Switches	8
Summarizing Junos Switching	1

### Configure Layer 2 Security on Junos

Overview	1
Introducing Layer 2 Security	2
Do We Really Need it?	11
DHCP Snooping	13
MAC Address Limiting	8
Other MAC Limiting Mechanisms	5
Dynamic ARP Inspection	5
IP Source Guard	3
MACsec	10
Storm Control	5
Interface Firewall Filters	5
VLAN Firewall Filters	4
Summarizing Layer 2 Security	1

## Deploy LACP on Junos Devices

Overview	1
Introducing 802.3ad (or 802.1ax) on Junos	1
LACP Foundations	13

### WEEK 2

152 min.

Create Aggregated Ethernet Interfaces	7
Deploy LACP on EX-Series Switches	13
Deploy LACP on QFX-Series Switches	8
Deploy LACP on MX-Series Routers	7
Deploy LACP Between Cisco IOS and Junos	6
Summarizing LACP Deployment	1

## Deploy Multi-Chassis Link Aggregations (MC-LAG) on Junos Bridges

Overview	1
Introducing MC-LAG	1
The Benefits of MC-LAG Explained	6
MC-LAG State Types	5
Configure the CE LAG	6
Configure the Inter-chassis Link (ICL) for MC-LAG	13
Configure Inter-Control Center Communications Protocol (ICCP)	9
Configure Active-Standby LACP and MC-AE Interface Settings	10
Validating the Configuration	5
Configure Active-Active MC-LAG	4
Summarizing MC-LAG	1

## Understand and Configure Spanning Tree Protocol (STP)

Overview	1
Everyone Hates Spanning Tree Protocol	2
STP Foundations	9
STP Key Terms	9
How Spanning Tree Builds the Tree	17
RSTP Port States and Roles	9

### WEEK 3

151 min.

VSTP Deployment	6
MSTP	4
Deploy Junos VSTP and Cisco PVST+	5
Protecting STP	7
Summarizing STP	1

## Advanced Routing Concepts on Junos

Overview	1
Introducing Advanced Routing Options	1
Enable Per-Flow Load Balancing	13
Load Balancing Static Routes	4
Backup Static Routes and Default Settings	7
Martian Routes	5
Aggregate Routes	10
Generate Routes	5
Configure Routing Instances	11
Configure Route Leaking	8
Summarizing Advanced Routing	1

## Design and Configure OSPF on Junos

Overview	1
Introducing OSPF on Junos	2
The OSPF State Machine	16
Designated Routers and Backup Designated Routers	8
Link State Advertisements and LSA Flooding	11
OSPF Area Types	10
Securing OSPF	6
Summarizing OSPF on Junos	1

## Design and Deploy IS-IS on Junos

Overview	1
Introducing IS-IS on Junos	3

### WEEK 4

156 min.

The ISO CLNS Levels	8
IS-IS Areas	5
IS Adjacency Formation and Behaviors	13
Configuring the NET Address	6
Configuring Level 1 IS Adjacencies	13
Configuring Level 2 IS Adjacencies	5
Configure Level 1-2 Borders	9
Configure IS-IS Authentication	4
Summarizing IS-IS	1

## Configure Basic BGP on Junos

Overview	1
Introducing BGP	2
Why BGP Exists	16

Configuring Basic BGP Adjacencies (Multi-Vendor)	19
Group Types (aka, eBGP vs iBGP)	12
Advertising Prefixes	9
Next-Hop Self	5
Where MPLS Fits In	8
A Note About iBGP Scaling Problems	6
Summarizing BGP Configurations	1

## Understand the BGP Best Path Selection Algorithm

Overview	1
First Things First...	4
Local Preference	6

### WEEK 5

154 min.

Accumulated Interior Gateway Protocol (AIGP)	7
AS-PATH (Like a Hop Count)	12
Origin Code	5
Multi-Exit Discriminator (MED)	4
eBGP vs iBGP	5
Lowest IGP Metric (Closest Exit)	4
Oldest Path	1
Router ID	4
Cluster List	4
IP Address	2
Summarizing BGP Best Path Selection	1

## Explore and Configure Junos Tunneling Technologies

Overview	1
----------	---

Introducing VPNs	3
The Point of Tunnels	15
Enable Tunneling on MX Routers	9
Configure an IP-IP Tunnel	8
The GRE Protocol Explored	7
Configure GRE Tunnels	6
Enable an IGP Over GRE	6
Tunnel IPv6 Over IPv4 Using GRE	5
Tunnel Frames Over GRE	10
Tunnel MPLS Over GRE	9
Summarizing Tunnels	1

### **Understand Junos Chassis High Availability Techniques**

Overview	1
Introducing Junos Resiliency	2
VRRP Fundamentals	20

## **WEEK 6**

**116 min.**

Configuring VRRP	10
Graceful Restart	6
Graceful Routing Engine Switchover (GRES)	8
Nonstop Active Routing (NSR)	7
In-Service Software Upgrade	4
Virtual Chassis	5
Summarizing Junos Resiliency	1

### **Configure IPv6 Services on Junos**

Overview	1
----------	---

Introducing IPv6	2
IPv6 Address Formats	11
Common IPv6 Address Families	13
Stateless and Stateful Addressing	11
Configuring IPv6 Addresses on Junos Interfaces	13
Configuring IS-IS for IPv6	6
Configuring OSPFv3	9
Configuring BGP with IPv6	6
Summarizing IPv6	1
