

Managing and Monitoring Instances in Microsoft SQL Server 2016

This intermediate SQL Server 2016 training teaches learners to manage multiple instances on a server, applying distinct policies to each. You'll learn to oversee SQL Server instances, run and differentiate them, and partition data and policies. By the end, you'll be able to efficiently configure and monitor SQL Server 2016 instances.

WEEK 1

Monitor Database Activity in Microsoft SQL Server 2016 157 min.

Monitor Database Activity: SQL Server Database Monitoring	3
Monitor Database Activity: Monitor Current Sessions	6
Monitor Database Activity: Identify Sessions that Cause Blocking Activity	5
Monitor Database Activity: Identify Sessions that Consume TempDB Resources	5
Monitor Database Activity: Configure the Data Collector	5
Monitor Database Activity: Lab	12

Monitor Queries in Microsoft SQL Server 2016

Overview	1
Monitor Queries: SQL Server Query Monitoring	4
Monitor Queries: Manage the Query Store	6
Monitor Queries: Identify Problematic Execution Plans	8
Monitor Queries: Configure Extended Events and Trace Events	9
Monitor Queries: Troubleshoot Server Health using Extended Events	4
Monitor Queries: Lab	13

Manage Indexes in Microsoft SQL Server 2016

Overview	1
Manage Indexes: SQL Server Index Management	4
Manage Indexes: Identify and Repair Index Fragmentation	7
Manage Indexes: Identify and Create Missing Indexes	4

Manage Indexes: Identify and Drop Underutilized Indexes	4
Manage Indexes: Manage Existing Columnstore Indexes	6
Manage Indexes: Lab	11

Manage Statistics in Microsoft SQL Server 2016

Overview	1
Manage Statistics: SQL Server Statistics Management	4
Manage Statistics: Identify and Correct Outdated Statistics	5
Manage Statistics: Implement Auto Update Statistics	4
Manage Statistics: Implement Statistics for Large Tables	5
Manage Statistics: Lab	17

Monitor SQL Server Instances: Configure Policy-based Management	5
Monitor SQL Server Instances: Identify Available Space on Data Volumes	3
Monitor SQL Server Instances: Identify the Cause of Performance Degredation	4
Monitor SQL Server Instances: Lab	13

WEEK 2

Monitor SQL Server 2016 Instances

51 min.

Overview	1
Monitor SQL Server Instances: SQL Server Instance Monitoring	3
Monitor SQL Server Instances: Configure Database Mail	6
Monitor SQL Server Instances: Create and Manage Operators	3
Monitor SQL Server Instances: Create and Manage Alerts	5
Monitor SQL Server Instances: Define Custom Alert Actions	3
Monitor SQL Server Instances: Define Failure Actions	3
