

Cisco Meraki Networks

This intermediate Cisco Meraki Networks training teaches you to implement Cisco Meraki solutions for cloud networks. Learn to navigate the Meraki Dashboard, integrate access points, and use cloud-managed security appliances for routing and security. Gain skills in unified device management and integrating Meraki with cloud security tools like Umbrella.

WEEK 1

Understand Cisco Meraki Cloud Networking Conceptsmin.

Introducing Cloud Networking	1
Meraki Cloud Device Lineup	6
Organizations and Networks	5
Adding a Device to a Network	2
General Network Configurations	5
Summarizing the Meraki Platform	1

Deploy LAN Connectivity with Meraki MX Appliances

Overview	1
Routing and Switching From the Cloud	1
Setting the Primary and Failover WAN IP Addresses	4
Addressing and VLANs	8
Running a DHCP Server	4
Configuring Warm Spares	4
SD-WAN and Traffic Shaping	5
Summarizing Meraki LAN Configuration	1

Implement Advanced Security Features with Meraki MX Firewalls

Overview	1
The Intelligent Firewall	1
Layer 3 Firewall Configuration	3
Layer 7 Firewall Configuration	3
Inbound Firewall Rules	4
Threat Protection and Content Filtering	4
Summarizing Meraki Firewall Features	1

Deploy VPNs with Cisco Meraki MX Firewalls

Overview	1
Introducing VPNs with Meraki	1
Deploying a Client VPN Endpoint	5
Creating Users for Client VPNs	1
Deploying the Client VPN on Windows 10	3
Creating a Site-To-Site VPN Topology	6
Configuring Non-Meraki Site-To-Site VPNs	2
Summarizing Meraki VPNs	1

Understand Meraki Dashboards and Webhook Alerts

Overview	1
Introduction to Understand Meraki Dashboards and Webhook Alerts	1
Client Monitor	4
Summary Report	2
Packet Captures and Event Logs	3
Configuring Proactive Alerts and Webhooks	3
Summarizing Meraki Reporting	1

Implement Cisco Meraki Switches

Overview	1
Layer 2 in the Cloud	1
Meraki Switch Routing and DHCP Design Considerations	7
InterVLAN Routing and DHCP	5
Configuring Switch Ports	6
Configuring Aggregate and Mirrored Ports	2
Other Switch Settings	4
Summarizing Meraki Switch Configuration	1

Secure and Monitor Cisco Meraki Switches

Overview	1
Securing Switches from the Cloud	1
Access Control Lists	7
Port Schedules	2
Access Policies	4
Monitoring and Tooling	4

WEEK 2

49 min.

Summarizing Cisco Meraki Switch Security	1
--	---

Implement and Secure Meraki WiFi Networks

Overview	1
Introducing Meraki WiFi Solutions	1
Deployment Considerations	5
Securing and Addressing SSIDs	5
Deeper Configuration of an SSID	3
Securing Meraki Wireless Networks	4
Radio and Bluetooth Settings	4
Monitoring Your WiFi Network	3
Summarizing Meraki WiFi	1

Implement Cisco Meraki MV Security Cameras

Overview	1
Introducing the Smarter Camera	1
Cisco Meraki MV Camera Capabilities	5
Creating a Camera Profile	4
Configuring Camera Settings	3
Camera Analytics and Monitoring	3
