WEEK 1

Introduction to PEN-103

164 min.

Knowing the Law	5
Right to Privacy	5
Keeping Trade Secrets, secret	9
Challenge	12

Installing and Configuring Kali

What is Kali?	7
Picking our Kali	10
Downloading and installing Kali	23
Live Kali	3
Challenge	6

Metasploit Framework

Kali being used for good	16
Intro to the Metasploit Framework	4
Metasploit Startup and Workspaces	12
Monitoring and discovering networks	21
Metasploit Modules	15
Metasploit Options and Payloads	15

Monitoring with Kali

Kali being used for good	16
Intro to the Metasploit Framework	4
Metasploit Startup and Workspaces	12
Monitoring and discovering networks	21
Metasploit Modules	15
Metasploit Options and Payloads	15

WEEK 2

165 min.

Monitoring for hidden networks	6
Using Meterpreter	15
Challenge	12
Metasploit Framework Review	2
Overview	1
Metasploit Framework	5
Metasploit on Kali	11
Systems Without Metasploit	11
How to Prep the Target	7
Other Metasploit Add-Ins	6
Options Outside of Metasploit	5

Monitoring for hidden networks	6
Using Meterpreter	15
Challenge	12
Metasploit Framework Review	2
Overview	1
Metasploit Framework	5
Metasploit on Kali	11
Systems Without Metasploit	11
How to Prep the Target	7
Other Metasploit Add-Ins	6
Options Outside of Metasploit	5

Working with Debian Packages

Introducing Debian Packages	6
Can we add more to Kali?	6

Being APT with Kali	9
Debian Management	6
Installing a Debian Package	12
Working with Sources	6
Challenge	4

Advanced Kali Usage

Kali is more than just Metasploit	8
Using Kali Live in a POSIX-based Environment	17

WEEK 3

65 min.

Persistent?	6
Using Kali Live in a Windows Environment	10
Challenge	4

Using Kali Legally

Even in PEN testing, Kali can be a legal problem	8
Pin point recon within the scope	7
Casting the wide recon net	7
Man-in-the-Middle (MitM considerations)	8
Handling information... all of it	6
Challenge	9
