

Professional Scrum Product Owner I (PSPO)

Earn your PSPO Certification and stand out as a certified Scrum Product Owner. This PSPO 1 certification course is designed for IT managers, product managers, and anyone ready to lead with agility. You'll master product backlog management, release planning, and stakeholder collaboration while gaining the confidence to drive product success. Along the way, you'll practice Scrum terminology and real-world techniques so you're fully prepared to pass the PSPO 1 exam.
