

Cisco CCNP Security Core (350-701 SCOR)

This intermediate Cisco CCNP Security training covers the objectives in the 350-701 SCOR exam, which is the core exam for the CCNP Security certification. This 350-701 SCOR exam prep will teach you a broad skill set, including network, cloud, and content security; endpoint protection and detection; secure network access, visibility, and enforcement. For anyone who manages their network — or the security of their network, this CCNP Security course is for you.

[CBT Nuggets course material](#) →

WEEK 1

Explain Common Threats Against On-premises and Cloud Environments 15 min.

Introducing the Cybersecurity Landscape	1
Know Your Assets	6
Know Your Vulnerabilities	5
Know Your Threats	8
Virus, Trojan, and Malware... Oh my!	5
Phishing and Social Engineering	5
DDoS - Attacking Availability	5
Spoofing and MitM Attacks	4
Summarizing the Threat Landscape	1

Compare Common Security Vulnerabilities

Overview	1
Introducing Common Attack Vectors	1
Get to Know OWASP	6
The SQL Injection'; SELECT * FROM table	10
Cross-Site Scripting; var doCode{}	6
Password Protection	8
Plain-Text Protocols	6
The Buffer Overflow	3
Summarizing Common Vulnerabilities	1

Components of Cryptography

Overview	1
Introduction to Components of Cryptography	1
Data Integrity	6
Data Privacy	4
SSL and TLS	7

Public Key Infrastructure (PKI)	4
IPsec	3
Authentication	5
Components of Cryptography Summary	1

IPsec Fundamentals

Overview	1
Introduction to IPsec	1
IPsec Overview	6
IKEv1 and IKEv2	8
Crypto Map IPsec	4
VTI IPsec	4
DMVPNs	3
FlexVPN	2
GET VPN	4
NAT Traversal	5

WEEK 2

151 min.

IPsec Fundamentals Summary	1
----------------------------	---

Cisco Router Site-To-Site VPNs

Overview	1
Introducing Site-To-Site VPNs	1
Planning for IPsec Site-To-Site	8
Designing a Site-To-Site VPN	4
Configuring an IKE Phase 1 Policy	8
Configuring an IKE Phase 2 (IPsec) Policy	12
Enabling the IPsec Policy	11

Protocol Analysis IPsec	5
-------------------------	---

Cisco Point-To-Point GRE over IPsec VPNs

Overview	1
Introduction to P2P GRE over IPsec VPNs	1
Overview of GRE over IPsec VPNs	6
P2P GRE Tunnel Design	2
P2P GRE Tunnel Implementation	5
P2P GRE Tunnel Verification	5
IPsec Tunnel Protection Design	2
IPsec Virtual Tunnel Interface Configuration	9
IPsec Static VTI Verification	3

Cisco DMVPN

Overview	1
Introduction to DMVPN	1
DMVPN Overview	4
Planning for the mGRE Tunnel	3
mGRE Tunnel Configuration	3
NHRP Overview and Design	5
Configuring NHRP for DMVPN	6
Adding Routing to DMVPN	7
Verifying DMVPNs	6
Adding IPsec Protection Profiles	6
DMVPN Summary	1

Cisco GET VPN

Overview	1
Introduction to GET VPN	1

GET VPN Overview	5
GET VPN Key Servers (KS)	6
GET VPN Members (GM)	6

WEEK 3

151 min.

GET VPN Design	5
Implementing KS Configuration	9
Implementing GM Configuration	6
GET VPN verification	8
GET VPN Summary	1

Cisco FlexVPN

Overview	1
Introduction to FlexVPN	1
FlexVPN Overview	3
FlexVPN Components	5
IKEv2 Flex VPN Site-To-Site Planning	4
IKEv2 FlexVPN Site-To-Site Configuration	6
IKEv2 FlexVPN Verification	4
Adding Routing to FlexVPN	4
FlexVPN Summary	1

Cisco Remote Access VPNs

Overview	1
Introduction to RA VPNs	1
RA VPN Overview	4
FlexVPN IPsec RA VPNs	6
FlexVPN RA Design	3

Setting CA Services in IOS	7
Configuring FlexVPN RA	7
AnyConnect Profile Editor	5
Testing and Verifying the RA VPN	7
Flex VPN RA Summary	1

Debugging for IPsec Tunnels

Overview	1
Introduction to Debugging IPsec	1
Overview of IPsec Options	2
Troubleshooting Tips for IPsec	5
IKEv1, Phase 1, Missing Routes	9
IKEv1, Phase 1, Bad Config	7
IKEv1, Phase 2 Bad Config	7
IKEv2 Troubleshooting	8
Summary Troubleshooting IPsec	1

Security Intelligence

Overview	1
Introduction to Security Intelligence	1
Security Intelligence Overview	4

WEEK 4

153 min.

Cisco Talos Overview	3
Talos Vulnerability Information	6
Talos Reputation Center	5
Security Intelligence Summary	1

Explain APIs in the SDN Architecture

Overview	1
Introducing APIs and SDN	1
What is an API anyway?	13
The Northbound API	4
The Southbound API	2
The Eastbound API	3
The Westbound API	2
Summarizing APIs and SDN	1

DNA Center Foundations

Overview	1
Introducing DNA Center	1
What DNA Center Does	12
What an SD-Access Fabric Does	9
The Four Workflows of DNA Center	9
The DNA Center Platform APIs	7
Summarizing DNA Center	1

Interpret Basic Python Scripts used with Cisco Security

Overview	1
Introducing Basic Python Security Scripts	1
Extending Python and Setting Variables	12
Getting Authenticated	12
Getting Monitored Applications	8
Summarizing Interpreting Python Scripts	1

Troubleshoot NetFlow

Overview	1
----------	---

Introduction to Troubleshooting NetFlow	1
NetFlow Overview	4
Flavors of NetFlow	6
NetFlow v5	10
Flexible NetFlow	6
NetFlow Collectors and Analyzers	4

WEEK 5

The Components of Network Security Design 151 min.

Overview	1
Intro to components of Network Security Design	1
Network Access Control	5
End Point Security	2
Next-Generation Firewalls and IPS	4
TrustSec and MACsec	3

Configure and Verify Cisco Port Security

Overview	1
Introducing Port Security	1
Understanding Port Security and Why We Need It	7
Port Security Defaults	4
Implementing Port Security on Layer 2 Interfaces	7
Customizing Port Security	10
Configuring Auto Errdisable Recovery	7
Applying Port Security Skills in Production	6
Review of Configure and Verify Cisco Port Security	2

Configure and Verify Cisco DHCP Snooping

Overview	1
----------	---

Introducing DHCP Snooping	1
Why is DHCP Snooping Needed	4
The Recipe for DHCP Snooping	6
Building and Implementing DHCP Snooping in PT	12
Adding Source Guard to a Switch	6
Review of Configure and Verify Cisco DHCP Snooping	3

Configure and Verify Cisco Dynamic ARP Inspection

Overview	1
Introducing Dynamic ARP Inspection (DAI)	1
Why is DAI Needed	3
The Recipe and Commands for DAI	4
Implementing DAI	10
ARP Access Lists for Non-DHCP Devices	12
Additional DAI Options and Features	7
Applying DAI to the Production Network	11
Review of Configure and Verify Cisco Dynamic ARP Inspection	2

Private VLANs

Overview	1
Introduction to Private VLANs	1

WEEK 6

151 min.

PVLANS Overview	6
Promiscuous Ports	6
PVLAN Design	3
Implement PVLANS	6
Verify PVLANS	8

Trunking and PVLANS	7
PVLAN Summary	1

VRF-lite

Overview	1
Introduction to VRF-lite	1
VRF-lite Overview	6
VRF-lite Configuration Basics	4
VRFs on a Multi-Layer Switch	2
VRF-lite Design	2
VRF-lite Implementation	6
VRF-lite Adding Routing	8
VRF-lite Routing Verification	6
DHCP VRF Services	7
VRF-lite Summary	1

Network Infrastructure Device Hardening

Overview	1
Introduction to Device Hardening	1
Device Hardening Overview	6
Cisco Guide to Harden IOS Devices	2
Management Plane Hardening	16
Control Plane Hardening	7
Data Plane Hardening	7
Device Hardening Checklist	4
Hardening Review	1

Configure Cisco TrustSec

Overview	1
----------	---

Introduction to TrustSec	1
TrustSec Overview	5
TrustSec Security Groups	4
Security Group ACLs	4
TrustSec Policies	7

WEEK 7

155 min.

Configure Network Devices for TrustSec	7
ISE and NAD TrustSec Integration	3
Verify TrustSec	13
SGT eXchange Protocol (SXP)	7

Additional Layer 2 Security

Overview	1
Introduction to Additional Layer 2 Security Options	1
Layer 2 Security Overview	3
Storm Control	8
Root Guard	5
BPDU Guard	5
Summary of Layer 2 Security	1

EIGRP Neighbor Relationships and Authentication

Overview	1
Introduction to EIGRP Relationships and Authentication	1
Neighborship Overview	3
Authentication Overview	11
EIGRP Hands on Lab with Authentication	13

Troubleshoot OSPF Authentication for IPv4

Intro to IPv4 OSPF Authentication and Troubleshooting	1
Overview of OSPF Authentication	14
Implement OSPF Authentication	16
Virtual Links and Authentication	3
Troubleshooting OSPF Authentication Lab 01	17
Troubleshooting OSPF Authentication Lab 02	19

WEEK 8

Troubleshoot OSPF Authentication for IPv6

160 min.

Overview	1
Intro to IPv6 OSPF Authentication and Troubleshooting	1
IPv6 OSPF Authentication Overview	15
Implement and Verify Authentication	13
Troubleshooting OSPF Authentication Lab 01	15
Troubleshooting OSPF Authentication Lab 02	13

Firepower Access Control Policies

Overview	1
Access Control Policy Overview	8
Access Control Policy Rule Actions Concepts	6
Access Control Policy Rule Actions Demonstration	6
URL Filtering	6
Malware and File Inspections	8
SSL/TLS Decryption	8
IPS Inspection	4

Management Options to Improve Security

Overview	1
Introduction to Secure Network Management	1
Overview of Secure Management	8
Syslog Overview	5
NTP with Authentication	6
Change Control	3

Troubleshoot SNMP

Overview	1
Introduction to Troubleshooting SNMP	1
SNMP Overview	8
SNMPv2 Configuration	9
SNMPv3 Client Configuration	10

WEEK 9

160 min.

SNMPv3 Server Configuration	5
Troubleshooting SNMP	5

Troubleshoot Network Problems using Logging

Overview	1
Introduction to Troubleshooting using Logging	1
Logging Overview	4
Configuring Logging	16
Conditional Debugging	14

Planning for and Securing Cloud Platform

Planning for and Securing Cloud Platform	8
Cloud Structure Types	7

Service Models	7
Cisco Security/Cloud Software	9
Shared Responsibility	13
Challenge	4

Securing Cloud Software-as-a-Service

Securing Cloud Software-as-a-Service	6
SaaS Examples in Cisco	9
Identity and Access Management (IAM)	8
Data Security and Encryption	7
Incident Response and Threat Detection	7
Review	6

Securing Cloud Platform-as-a-Service

Securing Cloud Platform-as-a-Service	8
PaaS Examples in Cisco	14

WEEK 10

154 min.

API Security Concerns	11
Incident Response and Threat Detection	5
Challenge	8

Securing Cloud Infrastructure-as-a-Service

Securing Cloud Infrastructure-as-a-Service	14
IaaS Examples in Cisco	12
API (NETCONF/RESTCONF)	13
Challenge	7

Software Development Methodologies

Software Development Methodologies	11
Software Development Life Cycle (SDLC)	8
Continuous Integration/Continuous Development	15
DevSecOps Integration	4
Review	3

Capture and Redirection Methods

Overview	1
Introduction to Capture and Redirection Methods	1
Capture and Redirection Overview	2
Policy Based Routing (PBR) Overview	2
PBR Configuration and Testing	6
WCCP Overview and Planning	2
WSA Configuration for WCCP	4
IOS Configuration for WCCP	8
Testing WCCP	3
Traffic Redirection Summary	1

Cisco Web Security

Overview	1
Introduction to Cisco Web Security	1
Web Security Appliance Overview	6
WSA and AD Integration	4

WSA Identification Profiles	7
WSA Access Policies	6
WSA Application Filtering	5

WSA TLS Decryption Overview	3
WSA Certificate Management	7
WSA Decryption Policy	6
WSA Additional Security Features	3

Cisco Email Security

Overview	1
Introduction to Cisco Email Security	1
Cisco Email Security Overview	5
ESA Inbound Mail Overview	6
Blocking Incoming Email	4
ESA Outbound Mail Overview	6
SPAM Filtering	3
Email Anti-Virus	2
DLP	2
Encryption	3

Cisco Umbrella

Overview	1
Introduction to Cisco Umbrella	1
Cisco Umbrella Overview	8
Umbrella Components	8
Policy Overview	5
Policy Components	8
Policy Creation	8
Core Identities	6
Umbrella CA Certificates	5
Reporting and Investigation	6
Umbrella VA	11

Umbrella Summary 1

Understand and Configure AMP for Endpoints

Overview 1

Introducing Endpoint Security 1

The Types of Endpoint Protection 5

Introducing Advanced Malware Protection (AMP) for Endpoints 8

WEEK 12

151 min.

Configuring Simple Outbreak Controls in AMP 6

Explore Other Outbreak Controls 5

Understand Groups and Policies 5

Summarizing Endpoint Security 1

Explain Various Types of Endpoint Defenses

Overview 1

Introducing Endpoint Defense Mechanisms 1

Anti-Virus and Anti-Malware 5

Indicators of Compromise (IoC) 6

Retrospective Analysis 4

Dynamic File Analysis 3

Summarizing Endpoint Protection Mechanisms 1

Endpoint Security

Overview 1

Introduction to Endpoint Security 1

Why Endpoint Protection is Critical 4

The Value of Mobile Device Management 4

Using Multi-Factor Authentication 9

Posture Assessment for Endpoint Security 6

Patching Endpoints 2

Describe Controls for End Users' Network Access

Overview 1

Introducing Network Access Control for Endpoints 1

Endpoint Profiling 9

Identity-Based Authentication 8

Authenticating with AnyConnect 8

Posture Assessment 6

Cisco TrustSec and Security Group Tags (SGTs) 6

Change of Authorization (CoA) 6

Summarizing Network Access Controls for Endpoints 1

802.1X Fundamentals

Overview 1

Introduction to 802.1x Fundamentals 1

Network Authentication and Authorization 7

Options for Authentication 7

Options after Authentication 7

Configure ISE for 802.1X

Overview 1

Introduction to Configuring ISE 1

Identity Stores 2

Configure ISE to use AD 3

Adding Network Devices to ISE 5

WEEK 13

136 min.

Policy Set Overview	11
Creating a Policy Set	13
Authorization Policies	10
Summary	1

Configure a Switch for 802.1X

Overview	1
Introduction to Switch Configuration for 802.1X	1
Configure Global AAA Parameters	8
Port Configuration	7
Testing and Verifying	5
Switch Configuration Summary	1

Explain Exfiltration Techniques

Overview	1
Introducing Attacker Exfiltration Techniques	1
DNS Tunneling Exfiltration	6
HTTP(S) Exfiltration	7
Outbound File Transfers	4
Text-Based Protocols	5
Recapping Exfiltration Techniques	1

Explaining the Benefits of Streaming Telemetry

Overview	1
Introducing Streaming Telemetry	1
What is Telemetry?	5
Network Telemetry	7
Endpoint Telemetry	5

Summarizing Telemetry	1
-----------------------	---

Describing the Features of Various Cisco Security Offerings

Overview	1
Introducing Cisco Security Platforms	1
Stealthwatch	7
pXGrid	5
Umbrella Investigate	6
Cognitive Threat Analytics	4
AnyConnect Network Visibility Module	3
Summarizing Cisco Security Platforms	1
