

Cisco CCNP Implementing and Configuring Identity Services Engine (300-715 SISE) v1.1

This CCNP Security training teaches you how to deploy and configure Cisco Identity Services Engine (ISE) to secure wired, wireless and VPN access. You'll integrate ISE with Active Directory, LDAP, PKI and multifactor stores, enforce 802.1X policies, implement Mac Authentication Bypass and Cisco TrustSec, and build authentication and authorization profiles. You'll also configure web and guest portals, enable BYOD onboarding and certificates, and manage endpoint posture and compliance. Prepare for the 300-715 exam with hands-on virtual labs and gain practical skills to secure modern networks.

[CBT Nuggets course material](#) →

WEEK 1

Explain Network Access Control (NAC)

Why Use NAC?

Who Is Connecting to the Network?

What Is Connecting to the Network?

Authorizing and Monitoring Network Access

External Network Access

Device Administration

Knowledge Check

Explore the Architecture of Cisco ISE

Introduction

Overview of the ISE Appliance

Personas

Knowledge Check

Explore Cisco ISE Deployment Options

Introduction

Standalone vs. Distributed Deployments

Types of Distributed Deployments

Sizing and System Requirements

Knowledge Check

WEEK 2

Build a Cisco ISE Environment: Preparation

Introduction

Topology Overview

Preparing the Physical Environment

Configuring VLANs

Deploying the Primary Router (RT01)

Knowledge Check

Build a Cisco ISE Environment: Deploying Services

Introduction

Deploying Windows Server VMs

Initializing the Active Directory Domain

Configuring Group Policy Objects (GPOs)

Configuring PKI

Knowledge Check

WEEK 3

Build a Cisco ISE Environment: DHCP and Endpoints

Introduction

Configuring DHCP

Deploying Endpoints

Knowledge Check

Build a Cisco ISE Environment: Network Config

Introduction

Deploying the Remote Access Router (RT02)

Configuring the Firewall

Deploying the Catalyst 9800 WLC

Knowledge Check

Build a Cisco ISE Environment: Deploying ISE

Introduction

Deployment Methods

Downloading ISE Files

Manual Deployment of ISE

WEEK 4

ZTP Deployment of ISE

Configuring the Distributed Deployment

Knowledge Check

Explore Identities in Cisco ISE

Introduction

What Are Identities?

Types of Identity Stores

Configuring Local Identities

Managing Identity Settings

Knowledge Check

Integrate AD and Cisco ISE with LDAP

Introduction

Native AD vs. LDAP Integration

Configuring the LDAP Integration

Knowledge Check

Utilize the Native AD Integration in Cisco ISE

Introduction

Configuring the Native AD Integration

WEEK 5

ISE Administration with AD Credentials

Troubleshooting AD Integration

Knowledge Check

Describe Policy Structure in Cisco ISE

Introduction

Policy Architecture

Policy Constructs

Knowledge Check

Explore the Policy Workflow in Cisco ISE

Introduction

Dictionaries

Conditions

Results

Policy Sets

Knowledge Check

WEEK 6

Describe AAA Protocols

Introduction

RADIUS vs. TACACS+

AAA Protocol Messages

Knowledge Check

Configure Network Devices in ISE

Introduction

Configuring ISE

Configuring NADs

Knowledge Check

Describe Port-Based Network Access Control (PNAC)

Introduction

The OG Solution

802.1X Overview

Alternatives to 802.1X

WEEK 7

Knowledge Check

Choose an EAP Method

Introduction

EAP Framework

Native EAP Methods

Tunneled EAP Methods

Packet Captures and Logs

Knowledge Check

Prepare for an 802.1X Deployment

Introduction

Planning the Deployment

Choosing a Supplicant

Wired Authenticator Configurations

Wired Authenticator Configurations

Wired Authenticator Configurations

Wired Authenticator Configurations

Wired Authenticator Configurations

Wired Authenticator Configurations

Knowledge Check

Configure ISE for Wired 802.1X

Introduction

Preparing ISE for 802.1X

WEEK 8

Creating the 802.1X Policy on ISE

Knowledge Check

Configure IOS Switches for Wired 802.1X

Introduction

Configuring RADIUS Enhancements

Enabling 802.1X and AAA Support

Configuring Endpoint Interfaces

Knowledge Check

Implement Wireless 802.1X on Cisco WLCs

Introduction

Role of 802.1X in 802.11 Security

Configuring a Wireless 802.1X Policy on ISE

Configuring 802.1X on IOS-XE WLCs

Configuring 802.1X on AireOS WLCs

Knowledge Check

WEEK 9

Configure the Native Windows 802.1X Supplicant

Introduction

Enabling the Native Supplicant

Configuring PEAP

Configuring EAP-TLS

Configuring TEAP

Knowledge Check

Enhance the Windows Native 802.1X Supplicant

Introduction

Configuring Wireless 802.1X

Transitioning from Monitor Mode

Exporting Supplicant XML Configuration

Knowledge Check

Configure Mobile 802.1X Supplicants

Introduction

Generating a Certificate

Apple Supplicants (macOS/iOS)

WEEK 10

Android Supplicants

Knowledge Check

Configure Additional Desktop 802.1X Supplicants

Introduction

Cisco Secure Client NAM

Linux Supplicants

Knowledge Check

Configure 802.1X on Cisco IP Phones

Introduction

Exploring the Certificates

Configuring 802.1X with MICs

Configuring 802.1X with LSCs

Knowledge Check

Use Externally-Signed LSCs for Cisco Phone 802.1X

Introduction

Why Not Self-Signed?

CAPF as a Subordinate CA

Online CA

Offline CA

Knowledge Check

Manage Endpoint Identities

Introduction

Exploring the Internal Endpoint Database

Methods for Populating Endpoints

Modifying Existing Endpoints

WEEK 11

Storing Endpoint Identities in AD

Knowledge Check

Create Internal Endpoint Identities

Introduction

Creating Endpoint Identities in the GUI

Automating Endpoint Creation

Working with Endpoint Identity Groups

Knowledge Check

Create Endpoint Identities in AD/LDAP

Introduction

The Battle of the Two Methods

User Accounts as MAC Addresses

LDAP Device Objects

Integrating ISE with LDAP for Endpoints

Knowledge Check

WEEK 12

Implement Wired and Wireless MAB

Introduction

Approaches to MAB Policy Sets

Configuring the MAB Policy Set

Configuring Wired MAB

Configuring Wireless MAB

Knowledge Check

Get Started with IBNS 2.0 for Wired 802.1X

Introduction

IBNS 2.0 Overview

Components of C3PL

Displaying the C3PL Configuration

Converting the Configuration to C3PL

Knowledge Check

Examine C3PL Configuration Options

Introduction

Global Configuration Options

WEEK 13

Policy Maps

Class Maps

Service Templates

Knowledge Check

Customize IBNS 2.0/C3PL Policies

Introduction

Customizing the Authentication Flow

Applying Service Templates

Applying Interface Templates

Knowledge Check

Prepare to Deploy Local WebAuth (LWA)

Introduction

How Does LWA Work?

LWA Policy Set

WEEK 14

Prerequisite Configuration on Switches

LWA Authentication Method List

Knowledge Check

Configure Wired Local WebAuth (LWA)

Introduction

Configuring LWA with IBNS 1.0

Testing LWA with IBNS 1.0

Configuring LWA with IBNS 2.0

Testing LWA with IBNS 2.0

Knowledge Check

Configure Wireless Local WebAuth (LWA)

Introduction

Configuring LWA on AireOS WLCs

Configuring LWA on IOS-XE WLCs

Analyzing LWA on Clients

Knowledge Check

Describe Central WebAuth (CWA)

Introduction

Overview of the CWA Process

WEEK 15

Web Redirection Use Cases

Third-Party NAD Redirection

Knowledge Check

Configure Central WebAuth (CWA) on ISE

Introduction

Default CWA Policies in ISE

Authorization Profile Configuration
Policy Set Configuration
Knowledge Check

Configure Central WebAuth (CWA) on NADs

Introduction
Redirect ACLs
Switch Configuration
WLC Configuration
Client Verification
For Those Who Dare...
Knowledge Check

WEEK 16

Configure 3rd Party Redirection for CWA in ISE

Introduction
Creating the NAD Profile
Configuring the ISE Policy
Creating the DHCP Scope
Configuring DHCP and DNS Options
Configuring the NAD
Verifying CWA on the Client
Knowledge Check

Design Guest Access with ISE

Introduction
Guest Segmentation
ISE Placement

High Availability
Types of Portals
Knowledge Check

Get Started with Guest Identities in ISE

Introduction
Overview of Guest Identities

WEEK 17

Guest Identity Management
Guest Self-Registration
Guest Sponsor-Initiated Registration
Knowledge Check

Customize Guest Types in ISE

Introduction
Basic Guest Type Settings
Guest Access Times
Guest Login Options
Guest Account Expiration Notifications
Knowledge Check

Configure Sponsor Groups and Other Settings

Introduction
Basic Sponsor Group Settings
Sponsor Group Permissions
User Purge, Custom Fields, and Locations/SSIDs

WEEK 18

Username/Password Policy and Endpoint Purge
Knowledge Check

Customize Basic Portal Settings in ISE

Introduction
Overview of Portal Settings
Guest Portal Settings
Basic Login Page Settings
Advanced Login Page Settings
Knowledge Check

Customize Portal Registration Settings in ISE

Introduction
Basic Registration Form Settings
Advanced Registration Form Settings
Self-Registration Success Settings
Knowledge Check

Configure Advanced Portal Settings in ISE

Introduction
Acceptable Use Policy (AUP) Page
Password Change and Device Registration
Miscellaneous Guest Portal Settings

WEEK 19

Hotspot Portal Settings
Basic Sponsor Portal Settings

Sponsor Portal Password Change Setting
Knowledge Check

Configure Guest Portal Appearance

Introduction
Basic Appearance Customization
Advanced Appearance Customization
Global Page Customizations
Anatomy of Portal Pages
Editing Text on Portal Pages
Formatting Portal Notifications
Knowledge Check

Configure Sponsor Portal Appearance

Introduction
Basic Sponsor Portal Customizations
Basic Account Creation Pages
Advanced Account Creation Pages

WEEK 20

Existing Guest Account Management Pages
Pending Guest Account Management Pages
Knowledge Check

Configure Guest Portal Certificates

Introduction
Designing Trusted Portal Certificates
Implementing Trusted Portal Certificates
Knowledge Check

Configure Guest Portal Notifications

Introduction

Designing Email/SMS Notifications

Configuring Email Notifications

Configuring SMS Notifications

Testing Portal Notifications

Knowledge Check

Configure Federated Authentication for ISE Portals

Introduction

Deploying AD FS

Creating a SAML Identity Store in ISE

Associating the Identity Store with Portals

Integrating AD FS with ISE

Finishing the SAML Identity Store Configuration

Testing Portal SSO

Knowledge Check

Control VPN Access with ISE

Introduction

Why Do We Need ISE?

Configuring RAVPN Authorization Profiles

Configuring the RAVPN Policy Set

Integrating the ASA VPN with ISE

Testing the RAVPN with ISE

Using ISE for Authorization Only

Knowledge Check

WEEK 21

Integrate ISE with Duo MFA

Introduction

Duo Integration Methods

Integrating the Duo Authentication Proxy

Testing Duo with RAVPN

Using the Native Duo Integration

Testing the Native Duo Integration

Knowledge Check

Design Device Administration AAA with ISE

Introduction

Device Connectivity Overview

Choosing a AAA Protocol

Integrating Device Administration with ISE

Sizing ISE for Device Administration

Determining Device Administration Load

Additional Sizing Considerations

Knowledge Check

Configure Basic Device Admin Policies in ISE

Introduction

Configuring RADIUS Device Admin Policies

Enabling the Device Admin Service

Exploring TACACS+ Policy Elements

Creating TACACS+ Policy Sets

Knowledge Check

WEEK 22

WEEK 23

Configure Privilege Authorization in ISE

Introduction

Exploring Privilege Authorization

Configuring RADIUS Privilege Authorization

Configure TACACS+ Privilege Authorization

Knowledge Check

Explore Additional Authorization Types in ISE

Introduction

Configuring AireOS Authorization

Command Set Overview

Basic Command Set Structure

Knowledge Check

Build TACACS+ Command Set Rules in ISE

Introduction

The Rules of Command Sets

Command Set Flexibility

Wildcards

Regex

Knowledge Check

Configure Advanced TACACS+ Features

Introduction

Creating Command Sets

WEEK 24

Additional TACACS+ Settings

Configuring IPsec with ISE

Configuring the NAD for IPsec

Knowledge Check

Configure IOS Privilege Authorization with ISE

Introduction

Reviewing the Current Configuration

Configuring Console Authentication

Configuring RADIUS Authentication

Configuring TACACS+ Authentication

Testing Additional TACACS+ Features

Knowledge Check

WEEK 25

Configure IOS Command Authorization with ISE

Introduction

IOS-XE Per-Command Authorization Overview

Configuring Per-Command Authorization

Testing Per-Command Authorization

Knowledge Check

Configure WLC Authentication with ISE

Introduction

IOS-XE WLC Configuration

AireOS WLC Configuration

Live Logs Overview

Verifying Detailed Live Logs
Detailed Screenshots of Live Logs
Knowledge Check

Describe Cisco TrustSec (CTS)

Introduction
Segmentation Overview
What Exactly is TrustSec?
TrustSec Architecture - Network Devices

WEEK 26

TrustSec Architecture - Security Groups
TrustSec Use Cases and Benefits
Knowledge Check

Explore the Phases of CTS

Introduction
Endpoint Classification
SGT Propagation - Inline Tagging
SGT Propagation - SXP
Policy Enforcement
Knowledge Check

Explore Traditional NAD Onboarding in CTS

Introduction
NAD Onboarding Overview
Secure RADIUS Overview
Secure RADIUS Methods

Credentials for TrustSec Authentication
Additional PAC Details
PAC Provisioning Process Breakdown

WEEK 27

PAC-Based RADIUS Packet Capture
Knowledge Check

Explore Additional NAD Configurations in CTS

Introduction
PAC-Less RADIUS Overview
PAC-Less RADIUS Packet Capture
HTTPS Environment Data Download
The Role of MACsec in TrustSec
Knowledge Check

Configure ISE for CTS NAD Onboarding

Introduction
NAD Authentication Settings
NAD Environment Data Download Settings
Configuring AAA/HTTPS Servers for TrustSec
Finalizing the TrustSec Server Configuration
General TrustSec Settings for Onboarding
Knowledge Check

WEEK 28

Onboard IOS-XE NADs onto a CTS Domain

Introduction

RADIUS Settings for IOS-XE Onboarding

AAA/CTS Settings for IOS-XE Onboarding

Onboarding IOS-XE NADs via HTTPS API

Knowledge Check

Onboard Other NAD Types onto a CTS Domain

Introduction

Onboarding IOS-XE WLCs

Onboarding AireOS WLCs

Onboarding Firewalls (ASA)

Knowledge Check

Create TrustSec Security Groups in ISE

Introduction

Game Plan

TrustSec Deployment Steps

Creating Security Groups

WEEK 29

Managing Security Groups

Assigning Security Groups to Users

Knowledge Check

Create TrustSec SGACL and SGFW Policies

Introduction

SGACL Syntax

Finalizing SGACL Configuration in ISE

Exploring the TrustSec Policy Matrix

Finalizing the TrustSec Policy Matrix Configuration

Advanced TrustSec Policy Matrix Features

Verifying SGACLs on NADs

Configuring SGFW Policies on ASA

Knowledge Check

Create TrustSec SGT Mappings in ISE/IOS-XE

Introduction

Creating Static IP-to-SGT Mappings in ISE

Manipulating Static IP-to-SGT Mappings in ISE

Static IP/VLAN-to-SGT Mappings in IOS-XE

Static L3IF-to-SGT Mappings in IOS-XE

Knowledge Check

WEEK 30

Configure Inline Tagging on TrustSec NADs

Introduction

Inline Tagging Configuration on IOS-XE Switches

TrustSec Enforcement Configuration on IOS-XE WLCs

TrustSec Enforcement Configuration on ASAs

Knowledge Check

Configure TrustSec SXP in ISE

Introduction

Basic SXP Settings

SXP Timers

Creating SXP Peerings
Manipulating SXP Peerings
Verifying SXP Mappings
Knowledge Check

Configure TrustSec SXP in the IOS-XE CLI

Introduction
SXP Global Settings
SXP Peer-Sequence-Nodes Limits
Creating SXP Peerings to ISE

Knowledge Check

Configure Advanced TrustSec SXP Features

Introduction
Verifying SXP-Learned SGT Mappings
Creating SXP Filter Lists
Configuring SXP Filter Groups
Configuring SXP Peerings on IOS-XE WLCs
Configuring SXP Peerings on ASAs
Knowledge Check

Tune Advanced TrustSec Settings in ISE

Introduction
SGT Numbering Settings
Automatic Security Group Creation & Hostname Behavior
Work Process Modes
Work Process Modes

WEEK 31

Exploring the Staging Workflow
Finalizing the Staging Workflow & DEFCONs
Knowledge Check

WEEK 32

Verify TrustSec Deployments in ISE

Introduction
Enabling CTS Enforcement on VLANs
Verifying the TrustSec Environment
Exploring Statistics in the TrustSec Dashboard
Exploring Logs in the TrustSec Dashboard
Testing Rule #1
Testing Rule #2
Testing Rules #3 and #5
Testing Rule #4
Knowledge Check

Configuring Profiling & Anomalous Behavior

Introduction
Intro To Profiling
Endpoint Profiling Policies
ISE Profiling Configuration
Anomalous Behavior
Configuring Anomalous Behavior
Validation

RADIUS Profiling Probe & ACIDex

Introduction

RADIUS Profiling Probe

Configurations For The RADIUS Profiling Probe

AnyConnect Identity Extensions (ACIDex)

Validation

DHCP/SPAN & SNMPTRAP Probes

Introduction

DHCP & DHCPSPAN Probes

SNMPTRAP Probe

Validation

SNMPQUERY, NMAP & DNS Probes

Introduction

SNMPQUERY Probe

Network Scan (NMAP) Probe

Network Scan (NMAP) Probe Configuration

DNS Probe
