

# Microsoft Server 2019 Essentials

In this entry-level Microsoft skills training, you'll learn to install, configure, and maintain the newest Windows Server version — Server 2019. After finishing this Windows Server 2019 training, you'll know how to upgrade to Windows Server 2019, and then configure and administer your systems infrastructure. This training has a number of virtual labs pre-loaded with Server 2019.

## WEEK 1

### Windows Server 2019 Foundations

152 min.

Welcome to Windows Server 2019 Foundations	2
What is Windows Server?	3
What's New in Windows Server 2019?	4
Windows Server 2019 Editions	4
Installation Options and Requirements	4
Licensing and Activation	6

### Install and Upgrade to Windows Server 2019

Overview	1
Introduction to Install and Upgrade to Windows Server 2019	1
Installing Windows Server 2019: Desktop Experience	10
Installing Windows Server 2019: Server Core	9
Performing an Unattended Installation	16
Upgrading to Windows Server 2019	11
Activating Windows Server 2019	11

### Configure Windows Server 2019

Overview	1
Introduction to Configure Windows Server 2019	2
Post-Installation Configuration Checklist	4
Configuring Desktop Experience	13
Configuring Server Core	10
Installing Roles and Features	12
Joining an Active Directory Domain	10
Configuring Windows Server using PowerShell	12

## Remotely Administer Windows Server 2019

Overview	1
Introduction to Remotely Administer Windows Server 2019	2

### WEEK 2

159 min.

Remote Management Tools Overview	5
Installing Remote Server Administration Tools (RSAT)	12
PowerShell Remoting	14
Installing and Configuring Windows Admin Center	15
Managing Servers with Windows Admin Center	13

## Configure Storage with Windows Server 2019

Overview	1
Introduction to Configure Storage with Windows Server 2019	2
Storage Features Overview	7
Configuring Disks and Volumes	14
Configuring Data Deduplication	14
Configuring Storage Replica	15
Configuring Storage Spaces	15
Configuring Storage Spaces Direct	14
Implementing Storage Migration Service	17

### WEEK 3

## Configure Networking Services in Windows Server 2019

Overview	1
Introduction to Configure Networking Services in Windows Server 2019	2

Networking Services Overview	6
Configuring and Managing DNS	14
Troubleshooting DNS	11
Configuring and Managing DHCP	12
Troubleshooting DHCP	11

## Administer Active Directory Domain Services

Overview	1
Introduction to Administer Active Directory Domain Services	3
Active Directory Domain Services Overview	4
Installing and Configuring Domain Controllers	14
Creating Users and Groups	17
Creating Organizational Units	11
Designing Groups and Assigning Permissions	16
Active Directory Management and Best Practices	12

## Administer Group Policy

Overview	1
Introduction to Administer Group Policy	2
Group Policy Overview	4
Configuring Group Policy Objects	16

### WEEK 4

162 min.

Deploying and Troubleshooting Group Policy Objects	15
Managing Group Policy Objects	16
Group Policy Best Practices	14

## Implement Virtualization with Hyper-V

Overview	1
Introduction to Implement Virtualization with Hyper-V	2
Hyper-V Overview	4
Installing and Configuring Hyper-V	16
Creating and Configuring Virtual Machines	20
Managing and Monitoring Virtual Machines	16
Hyper-V Best Practices	11

## Pwning with PowerShell

Overview	1
Introduction to Pwning with PowerShell	3
PowerShell Basics	19
Scripting Basics	22

## WEEK 5

**134 min.**

Scripting Backup Event Logs	17
Automating PowerShell Scripts	15
PowerShell Tools and Resources	17
System Insights	15

## TSHOOT: Windows Server 2019 Lab Challenges

Overview	1
Introduction to TSHOOT: Windows Server 2019 Lab Challenges	1
Networking and Active Directory Challenge	10
Networking and Active Directory Solution	13
Hyper-V Challenge	8
Hyper-V Solution	14

PowerShell Scripting Challenge	8
PowerShell Scripting Solution	10
What's Next?	3
